

Cane Molasses

SUITABLE FOR FEEDING

Cane Molasses is a sweet black liquid which is high in both sucrose **sugars** and **fermentable energy** making it an ideal energy supplement and sweetening agent for dairy, beef and sheep rations. Feeding molasses will **improve intakes** of both good and poor forages by enhancing **palatability** whilst **minimising waste**.

- ✓ **Good source of energy and sugars**
- ✓ **Enhances feed palatability**
- ✓ **Supports milk proteins**
- ✓ **Improves forage intake**
