

# X<sup>i</sup> product range

SUITABLE FOR FEEDING

- ✓ Xtra intake
- ✓ Xtra innovation
- ✓ Xtra income
- ✓ Xtra ingredient

The innovative active ingredients that make up VéO core have been added to our existing farm molasses products to create the exciting Xi range. In addition to the feeding benefits of liquids these products contain the **unique technology of VéO core** which in combination with cane molasses has shown a **synergistic effect** in increasing **voluntary forage intake**. VéO core works by stimulating the cow's senses to increase appetite and **reduce stress levels**.

Trials have shown that Xi liquids help livestock farmers to achieve **Increased Forage Dry Matter Intake** and Increased Animal Performance, resulting in reduced reliance on bought in concentrates and **Higher Overall Profitability**.

## Typical Analysis (DM Basis)

Xi Product	Solids (%)	Sugars (%)	Protein (%)	ME (MJ/Kg)	Litres (per tonne)	Viscosity (cps at 20°C)	ERDP (g/Kg)
<b>CaneFlow Xi</b>	70	65	5.4	12.7	725	1500	33
<b>MolaFerm Xi</b>	69	52	13.5*	12.2	735	950	70
<b>Nutrimaize Xi</b>	65	60	40	13	740	500	320

\* Can vary +/- 20% depending on origin of raw materials

## Additional Data (DM basis)

Xi Product	Ash (%)	Calcium (%)	Phosphorous (%)	Magnesium (%)	Sodium (%)	Potassium (%)
<b>CaneFlow Xi</b>	14.5	1	0.15	0.4	0.15	4.5
<b>MolaFerm Xi</b>	20	0.7	0.1	0.4	0.4	5.2
<b>Nutrimaize Xi</b>	12	0.7	0.2	0.4	0.2	3.5
